

Evwerhamre Israel

Full-Stack Software Engineer

About Me

A results-driven Full-Stack Developer and expertise in backend development, specializing in Node.js. Proficient in both MERN (MongoDB, Express.js, React, Node.js) and LAMP (Linux, Apache, MySQL, PHP) stacks, with a strong focus on building scalable and efficient web applications. Experienced in crafting robust APIs, optimizing database performance, and ensuring security standards. Passionate about leveraging technology to drive innovation and deliver high-quality solutions..

I thrive in collaborative work environments, approaching challenges with a solutions-oriented mindset and an unwavering dedication to ongoing professional growth. My ultimate goal is to actively contribute to dynamic teams while harnessing my Node.js proficiency to engineer pioneering, user-centric applications that leave a lasting impact on the digital landscape.
